Stolen Cotton.

Levi Bras, bought two bales of cotton from John Williams, this morning and here they were identified as the property of Mr. J. H. Aycock, of Wedgefield. It was stolen last night, and wagon tracks led to the house of Eli Smithers, and he has been arrested and held until Williams can be caught.

Williams left town as soon as the cotton was sold. Smithers claims that he had nothing to do with the theft and can establish innocence.

Cleveland's Cabinet.

LAKEWOOD, N. J., February 14.—Cleveland officially announced the names of four members of his Cabinet through the United Press this evening. They are: Walter Q. Gresham of Illinois, Secretary of State; John G. Carlisle of Kentucky, Secretary of the Treasury; Daniel S. Lamont of New York, Secretary of War; Wilson S. Bissell, of Buffalo, Postmaster General.

On making this announcement Cleveland said: "There is no need of any mystery in regard to the cabinet, and it is useless to speculate and indulge in guess work. I shall make no secret of the matter, but shall announce the names of the gentlemen selected to fill the positions as fast as I receive their acceptances and permission to make the matter public."

Cleveland would say nothing in regard to the other positions or the men who have been mentioned in connection with them. It is evident that Hoke Smith, Hilary A. Herbert and others who have been mentioned are still under consideration. A conference, which will probably settle Hoke Smith's chances one way or the other, will be held at Cleveland's office in New York City on Wednesday. Senator Gordon and other Southerners will be present.

Who will be the Next Governor of the State?

COLUMBIA, February 12.—It really looks as if the woods are going to be full of lightning rods waiting for the gubernatorial nomination to strike them. Almost every day I hear of some new candidate who would like to bear the burdens of office, and really there will be no lack of "would-be's." For the present all of the rods are coming from the "Reform store," and the purchasers from that store ought to be pleased with the multitude of candidates. The lightning rods which are waiting to be struck, according to popular rumor, will have a variety of brands. Some will be of the sub-treasury-Alliance style, others will be fashioned after a more conservative style, some will be guaranteed to keep up dispensary laws, other to patch it up, one to represent anti-suit-treasury views. Now, of course, everybody knows that because a man's name is mentioned in connection with an office it does not necessarily follow that he can get it, or in other words, if the lightning will strike him. There are some of them waiting for the stroke, and unfortunately for their hopes it can't strike more than one place every two years.

There is no intention to slight anyone who is expecting an office, so if anyone is left out a two-cent stamp and a letter addressed to the Bureau will rectify the unintentional error.

So far as political chat goes the possible entries from the Reform side are:

Secretary of State Tilden, who is said to be a prime favorite with the Administration, is looked upon as a good man, one combining certain liberal ideas that would tend to conciliate certain factions.

Senator John Gary Evans is wanted by some of the orthodox Tillmanites, who want an aggressive fighter and a champion of the dispensary bill.

Congressman George D. Tillman is said to have a great many friends who want to see him elected Governor. They say that he's a "sure winner."

Senator W. D. Evans is reported to be in the field, not as an active candidate, but one who has no scruples against accepting the nomination and making a fight.

Chairman M. L. Donaldson is thought to be in the race, if he is not struck with a good Federal position.

State Treasurer Bates's name has been mentioned in connection with the gubernatorial office. His candidacy would be recognized and more generally acceptable than that of many others.

Comptroller General Ellerbe's name has been presented by some Pee Dee enthusiasts. It is said that he is not in any race, on account of his health.

Adj. Gen. Farley is said to have some aspirations to succeed Governor Tillman.

Editor Gantt was named a candidate in Spartanburg, a Mr. L. F. Walker, who is in the race, is the "highlight."

It will seem that the Reform element will find plenty of material.—News and Courier.
